

WILSON TO INVESTIGATE CONDITIONS IN HAWAII

Will Make No Changes in Administration of Hawaii, Philippines or Porto Rico, Without Report.

[By Federal Wireless Telegraph]

WASHINGTON, D. C., January 19.—(Special to The Advertiser.)—It is understood here by personal friends of President-Elect Wilson that he has practically made up his mind to hold in abeyance any contemplated change in the administration of Hawaii, the Philippines or Porto Rico until after a small commission of personally chosen investigators have visited the islands in question and after a thorough study of conditions have reported to him their recommendations.

It is currently reported that this commission

WILLIAM JENNINGS BRYAN,
Who will head commission which will investigate Hawaii.

W. J. Bryan to Head Commission of College Professors Which Will Visit the Islands.

will be headed by William Jennings Bryan and that an Eastern, Southern and a Western college professor will constitute the other members.

A report that Bryan is to succeed Governor-General Forbes at Manila has been going the rounds for some time here, but both Bryan and Wilson are understood to have dismissed this suggestion privately as mere gossip.

If President-Elect Wilson names the commission as reported, it will mean that no appointments affecting the administration of Hawaii, the Philippines or Porto Rico will be made for at least six months following the inauguration of Wilson.

U. S. TROOPS HOLD PIER OF RAILROAD

Government Ends Argument With Lackawanna by Taking Possession.

(By Federal Wireless Telegraph.)
WASHINGTON, D. C., January 19.—(Special to The Advertiser.)—Federal soldiers were ordered to take possession of the North pier at Buffalo by Secretary of War Stimson at the request of Attorney General Wickham, yesterday.

The government disputed the Lackawanna railroad's right to the pier for many years. In 1910 an order was issued by the government forbidding the railroad boats to dock at the pier in question. Since then, however, permits have been issued by the war department granting temporary occupancy of the property.

The last permit expired in December and was not renewed. The wharf was used for the landing of government supplies and equipment for harbor improvements. It was charged that the railroad boats were an obstruction to navigation.

Grave Ready for Pope Pius X Will Rest by Tomb of St. Peter

(By Federal Wireless Telegraph.)

ROME, January 19.—(Special to The Advertiser.)—The Pope wishes to be buried in the Vatican crypts near the tomb of St. Peter and this has raised a legal question. Under the Italian law the burial of bodies in churches is prohibited.

Manuel Di Bisagno, in behalf of the chapter of the Basilican, therefore presented a formal application for the necessary dispensation which was readily granted by the Italian government.

Strictly speaking the Italian authorities have no jurisdiction over the Vatican, which is extra-territorial, but for fear that complications might arise after the death of Pius X it was thought better to have the question settled beforehand. A recess in the wall large enough for a coffin has now been prepared. It has been bricked over so as to resemble a slab of marble on which the name of His Holiness can be engraved, and has been prepared in such a way that there will be no delay about burial of the body which must be after nine days.

The Pope has now decided that the body of his predecessor Leo XIII shall remain in Saint Peter's instead of being transferred to Saint John Lateran as the late Pope wished. Pius X is afraid that the anti-clericals might disturb the funeral cortege making the transfer of the body.

Italy at the present time has 375,000 men under arms outside of the usual 250,000 peace strength; one-third of these now being held should have served only two years, but are being retained under the new law prolonging the term of service until the end of next month.

Finds Napoleon I Died of Neglect British Physician Upsets History

(By Federal Wireless Telegraph.)

LONDON, January 19.—(Special to The Advertiser.)—After the lapse of almost a century, light is at last thrown on the illness which preceded the painful death of Napoleon the Great, by an English doctor of high standing, Doctor Chapin, fellow of the Royal College of Surgeons and M. D. of Cambridge.

He has secured and analyzed a few official documents relative to the demise of the "little corporal" on the rock of St. Helena, and heretofore pigeon-holed in secrecy.

Doctor Chapin proves that Napoleon was killed by the neglect, incapacity and disagreement among the doctors appointed by the British government to attend the imperial captive.

"Napoleon," says Chapin, "suffered in the first instance from a chronic ulcer of the stomach, from the edges of which a cancer developed about seven or eight months before his death."

This is in absolute contradiction to previous accepted history. Doctor Chapin shows from the symptoms and examination recorded in the secret paper that the cancer did not develop until after Napoleon had been worried and tormented almost to the point of death in the course of the three years and seven months' illness from a complaint which in these days could have been cured in less than three weeks.

NO REASON FOR IT

You Are Shown the Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. The following is convincing proof:

L. W. Stapleton, Spring St., Chippewa Falls, Wis., says: "I suffered from sharp twinges through the small of my back, especially if I made an awkward movement. Occasionally I had dizzy spells and black spots floated before my eyes. When Doan's Backache Kidney Pills were brought to my attention, I procured a supply and their use corrected my trouble."

(Statement given in February, 1905.)

A CORROBORATION.

On September 10, 1910, Mr. Stapleton added to the above: "I do not hesitate one moment in confirming my former endorsement of Doan's Backache Kidney Pills. I have recommended this remedy to many other people and all who have tried it have been benefited."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu.

SHERIFF HENRY WOULD WORK PRISONERS

Thinks Legislature Should Provide for Use of Prison Labor on Public Works.

CRITICIZES MAYOR J. J. FERN

High Sheriff Denies That He Employed Convicts to Work on His Ranch.

(From Monday Advertiser.)

"Mayor Fern certainly had no authority to use prison labor in his private employ, and in my opinion acted unwisely in allowing prisoners to work at his home." So said William Henry, high sheriff, yesterday. "I believe in employment for prisoners convicted of crime," continued the high sheriff, "but certainly they should be employed only on work for the public and not for private officials or other persons."

"There is absolutely no truth in the report that I have employed convict or prison labor on my private property. In the first place, my ranch is situated about thirteen miles from here, and in the second place I would not think of doing such a foolish and illegal thing. This story probably started from the fact that about two years ago a Japanese convict who had just completed a long sentence asked me to lease him a small patch of land at my farm. There is a small shack on the place. I allowed him to live in the house and to work the land and have not charged him any rent. He has raised vegetables, sold them to his countrymen and made a living on the land. He is still there, but by no means is he a prisoner."

"It is unfortunate that we have no means of providing employment for prisoners convicted of misdemeanors. It is against the Constitution to compel a prisoner convicted of crime in the Territory to labor, though many of them desire to in order to escape confinement. It can be arranged to have these prisoners volunteer to work, as many of them now do."

"I am in favor of the next legislature taking some action which would prevent the use of prison labor for private purposes, but at the same time I would welcome a law which would enable us to keep our convicts employed on public work. It would be better for the convicts, too, for they are certainly not in as good health when they are confined as when they are given the opportunity for healthy exercise. Many of them now appeal to us for permission to do most any work we can find for them, and in this way some of them are kept occupied at small tasks."

Martin Mager, county clerk of Queens, New York, on a fee system, made more than \$50,000 during the year just ended. The system is abolished by a new law and the clerks will get a straight salary of \$8000 a year.
